

Yardi Voyager® Integration

*Communication Solutions
for Property Managers*

Through the One Call Now integration with Yardi Voyager, property managers can send phone calls, emails, and text messages to residents confidently, knowing their contact records are automatically synced and up-to-date.

One Call Now

WITH THE YARDI VOYAGER INTEGRATION:

- Keep data current in the One Call Now system by allowing Yardi to automatically sync contacts.
- Send late rent notifications or lease renewal reminders to specific residents.
- Automate delinquent payment notifications for daily, weekly or monthly sends to remove manual processes.
- Automate notifications to residents when a work order is complete.
- Utilize the subgrouping capability to send notifications based on building or floor.
- View reports of notifications sent, monitor successful contacts and save reports for later use.

The screenshot shows a web-based interface for sending messages. At the top, it says 'Send a Message' with 'Message Type: Informational' and 'Source: File of External IDs'. Below this are three steps: '1. Message', '2. Contacts', and '3. Schedule and Send'. The 'Message Name' section has a text input field with 'Delinquent Tenants' entered. The 'Message Selection' section has a heading and a note: '* Select the types of messages you would like to send.' Below this are three checkboxes: 'Phone' (checked), 'Email', and 'SMS Text Message'. The 'Polling Options' section has a heading and a note: 'Request a response (polling) from your Recipients'. Below this are three radio buttons: 'None' (selected), 'Yes (Phone will record response by touch tone)', and 'Transfer'. The 'Phone' section has a heading and a note: 'Enter or select your phone message'. Below this are two radio buttons: 'Text-to-Speech' (selected) and 'Audio Library Message'. At the bottom, there is a text input field with the message 'You are Delinquent on your payment' and a toolbar with various icons.
